

BOTTOM MOUNTED VALVE OPTIONS

Six Options are available for use with most of the Standard Magnatrol Solenoid valves and are fitted to the bottom of the valve body

Note: Only one of the six options can be installed on each valve.

Drain (Prefix DR)

This valve option allows for a 1/4" NPT plug to be supplied in bottom of valve to facilitate draining of liquid from valve body.

Available on valve types:

M, N, A, S, L, D and G
